

# No money?

Could it be?  
the **GUNJA** 

Buying gunja can mean not enough \$\$\$ for food, bills and good things for the whole family.

Needing money for gunja leads some people to do things they regret, like standing over people for money or breaking the law.

Being stoned causes trouble getting work, going to work and doing well at work.

Gunja isn't our culture, it harms our spirit

Talk to your GP or health worker about the effect gunja might have on you or your family's health and wellbeing.
